

Miry's List - Welcoming Resolution

In this unique time when we're bombarded with conflicting and polarizing real-time news, there are certain consistent truths that we can rely on.

One of those truths is that **Hermon** is and will always be a place for everyone. **Hermon** neighbors come from different backgrounds, races, religions, orientations, belief systems and cultures. We fundamentally believe that our differences make us strong, unique, powerful and complete. We embrace and respect one another first as neighbors, and we strive to look out for each other.

This statement, signed and approved unanimously by the **Hermon Neighborhood Council** together with our neighbors, affirms that Hermon is and will always be a safe, welcoming place for people from anywhere. We encourage immigrants and refugees to join our community, we will welcome you as our neighbor and embrace you as our friend.

If there should be a time where an individual or group is cast out based on their country of origin, sexual or gender orientation, religion, or social status, we will stand by them and invite them to **Hermon** to join our community."

Signed,

Hermon Neighborhood Council
